The Open F5J competition will be flown strictly to current FAI rules, with 2 man teams, and flyoff rounds. The number of participants in the flyoff rounds, and the number of flyoff rounds, will be declared at the pilot briefing Saturday morning. This event will be the Australian Team Selection Trial (conducted on behalf of AEFA) for the 2023 F5J World Championships. Only one Team Aspirant per 2 man team. The results of the Team Selection Trial will be declared at the end of the preliminary flights before the fly off rounds. In the event of bad weather limiting the number of preliminary rounds flown to less than 12 rounds on Sunday evening, we will continue with preliminary rounds on Monday until 12 have been flown, or 4:30 ends flying.

GPS Triangle Racing will consist of training sessions, a Challenge Cup and GPS Competition

Scale Gliding will be an open fun fly rally type event with trophies for best Vintage, and best Modern class gliders. Tug planes up to 150cc will be available.

Pilots must be a member of the MAAA or Overseas pilots must belong to an FAI affiliated organization.
Anniversary SSL T-shirts will be available for pre-order. Check <http://www.southernsoaringleague.club/> for details.

Entries close Friday March 3
